Peta Leigh

General Dental Council
protecting patients,
regulating the dental team

For centuries Willow Tree bark has been used in natural medicinal remedies, to alleviate pain.

Balance, learning, growth & harmony

It also represents balance, learning, growth and harmony. Willow Tree Dental aims to reflect the willow tree's medicinal and symbolic heritage in its practices.

Our Core Values

Value of Service

Our time is invested in you; to fully understand your dental health along with your desired result and peace of mind.

Minimal Intervention

Our preventative approach focuses on monitoring, repairing and protecting our patients' natural tooth tissue.

We believe in passion in our practice and we're led by our four core values.

Honesty & Transparency

We will endeavour to be reassuring, upfront and to discuss your treatment options in full so that you can make trusted, informed decisions.

Family Approach

The treatment we recommend is always that of which we would wholly recommend to our friends and family.

End-to-end patient care

High quality service

Willow Tree Dental offers all aspects of dentistry; from the most routine of dental check-ups to innovative orthodontics, cosmetic dental and facial aesthetics.

Promoting oral health

Eliminating dental fears

It's especially important for us to provide a comfortable and welcoming experience for our younger patients.

We believe that early dental visits can eliminate fears and instil great oral health habits that last a lifetime.

Gentle & patient dental care

Trusting Dental Relationship

We promise to personalise your experience; to listen to your concerns and to take the time to build positive and trusting relationships. It is our aim to meet and exceed your expectations.

.....On my wedding day when I looked in the mirror, it was like seeing a whole new person. I could not have been happier with the final results; my teeth look amazing. The care and precision that went into achieving these teeth totally overwhelmed me. I never thought that my teeth could ever look this perfect.....

Patient Choice Award Case 2019

Cosmetic Dentistry

Quality & Care

Willow Tree Dental is committed to providing an exceptional level of cosmetic dentistry and clinical care, offering the highest quality materials and techniques.

Passion & Craft

With our passion for detail and proportions, we craft beautiful, natural-looking smiles and our clinicians have chosen to work with technicians that create unparalleled aesthetic restorations.

Award-Winning

Our pursuit for continued clinical excellence is reflected in our numerous national awards and commendations in aesthetic dentistry and orthodontics.

Smile Makeover

We understand the smile makeovers can have a positive impact on your confidence and appearance. By improving tooth colour, shape and display we can completely transform your smile.

Restorative dentistry

Stable Replacement

Dental implant therapy is tailor made to each individual patient's needs and requirements to create a stable foundation for replacement teeth that look, feel and function like natural teeth.

3D Digital Imagery

With 3D image guided surgery, experienced surgeons and strict healing procedures, you can be confident of a strong, reliable foundation.

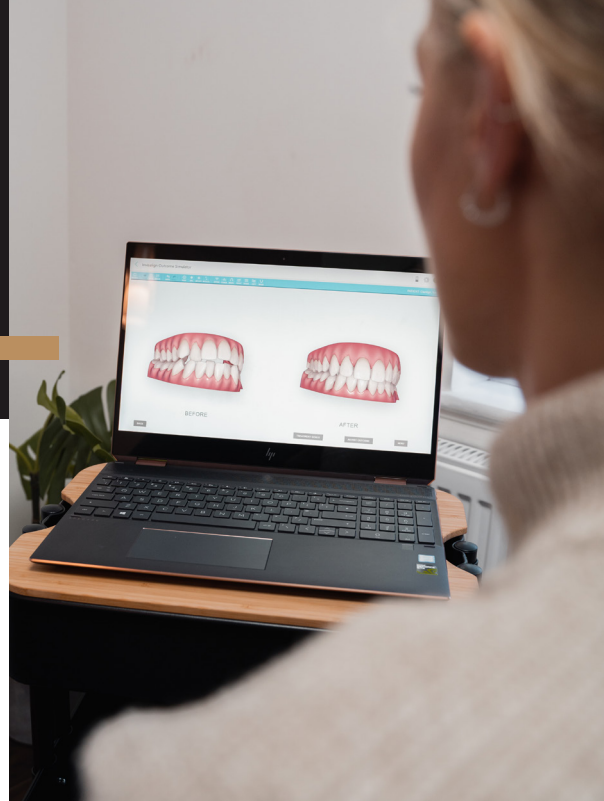

Predictability & Success

Treatment predictability and success is supported by our use of established, trusted materials.

.....I have been a patient of Dr. Mimeh for several years, for different procedures. I have found her to be very skilled and professional, with a calm and reassuring manner and gentle hand. The staff are all very friendly and efficient and the clinic immaculate. Highly recommended.....

Orthodontics

Innovative Technology

Our specialist clinicians invest in continued professional and clinical development to provide innovative, modern orthodontic treatments.

Beautiful & Healthy Smiles

Using fixed braces, clear aligners and invisible braces, orthodontic treatment can improve the health and stability of teeth as well as their appearance.

Children & Adults

Orthodontics is a speciality within dentistry which focuses on the alignment of teeth within the jaw.
